Winter Vacation Safety Guidance

1. Traffic safety: Please use public transportation as much as possible when going out.

2. Activity safety: When engaging in indoor and outdoor activities, you should fully understand the escape routes and equipment, and not enter or leave illegal places.

3. Work-study safety: Pick your PT place wisely.

4. Residential safety: To reduce the occurrence of accidents at home, please pay attention to the importance of fire prevention, and electricity and gas safety at home, close the doors, and windows, and shut down the power and gas before out.

5. Anti-drug propaganda: Do not take any unfamiliar medication.

6. Anti-fraud: Do not click on unknown text message URLs to avoid fraud.

If you encounter those calls and messages, there are 3 steps you can take:

"Keep calm",

"Check carefully", "Call the police immediately or call the 165 anti-fraud consultation hotline or 165 of the Police Department for national anti-fraud Website (URL <https://165.npa.gov.tw/#/>)" for assistance.

7. Personal safety: Please cooperate with the school schedule during the winter vacation, do not arrive at school too early or leave school too late alone, avoid staying alone in the classroom, do not walk alone in dark alleys or inaccessible places; if you encounter strangers or if you find a suspicious person, you should immediately go to a crowded place or the nearest convenience store, and shout to attract the attention of others, **and quickly report to 110 and the school security center at 04-23928053.**

8. Anti-epidemic safety: The CDC once again appeals that the public should complete vaccination as soon as possible, and you're their hands washed and disinfected, and wear masks at all times. Reduce unnecessary movement, activities, or gatherings, avoiding crowded places, or high risk of infection transmission. If you got COVID, please report at the NCUT epidemic prevention zone notification website:
